

The Cayman Islands Health Services Authority, is the principal healthcare service provider in the Cayman Islands, offering the most comprehensive range of inpatient, outpatient and public health services through a 127-bed hospital and four District Health Centres on Grand Cayman, an 18-bed hospital in Cayman Brac and a satellite outpatient clinic in Little Cayman.

We invite applications for the following position:

PSYCHIATRIST (CHILD AND ADOLESCENT)

Salary range: CI\$163,164 – CI\$189,204 per annum

On call Allowance of CI\$18,883 per annum

The Child & Adolescent Psychiatrist will be required to provide psychiatric expertise and leadership to the Cayman Islands Government Health Service. The candidate will provide expert care to minors and adolescents in the neurodevelopmental window experiencing psychological or psychiatric symptoms. To provide high quality assessments, diagnoses, treatment planning and review in the care of service users.

Primary Responsibilities: The successful candidate will be required to operate and manage an out-patient schedule and review for children and adolescents. He/she will provide services at Alex Place to walk-in clients, provide regular clinical monitoring of psychiatric outpatients and inpatients, day hospital patients and to attend ward rounds. The candidate will be responsible for the voluntary and involuntary admissions of patients under the Mental Health Law. He/ she will also facilitate forensic evaluations and court reports for children and adolescents when applicable. Other general duties will also include providing psychiatric support to Caribbean Haven, a government owned 14 bedded substance use treatment facility. The candidate will be required to run an out-patient clinic **at Faith Hospital (on our sister island Cayman Brac)** twice per month. The candidate will be required to engage other multidisciplinary teams and other specialist in the Cayman Islands Hospital. The child and adolescent psychiatrist is expected to utilize evidence-based guidelines, follow care pathways relevant to the child and adolescent mental health service and to provide 24- hour on-call service as scheduled on the monthly roster.

Qualification & Experience: The successful candidate must have a primary medical qualification as well as a recognized postgraduate qualification with a minimum of four (4) years' training in Psychiatry. Must have subspecialty training in Child and Adolescent Psychiatry. Must be eligible to acquire registration to practice in the Cayman Islands. Must have current license in one of the seven recognized jurisdictions: New Zealand, South Africa, Australia, USA, Canada, Jamaica or United Kingdom.

A remuneration and benefits package, commensurate with experience and qualifications will be offered to the successful candidate.

NOTE: Incomplete applications will not be considered. All applicants must complete and submit an HSA Application Form via e-mail to hsa.jobs@hsa.ky using pdf format. Log on to our website at www.hsa.ky to access Application Form and Job Description.

Application Deadline: January 11th, 2026

Committed to Caring for You

Job Description

Job title	Child and Adolescent Psychiatrist	Job Holder	
Reports to	Head of Dept. Behavioral Health	Section	<i>Behavioral Health</i>

Background Information

The Cayman Islands Health Services Authority (“HSA”) provides and administers health care services and public health functions for residents of the Cayman Islands in accordance with the National Strategic Plan for Health.

Services are delivered primarily through the 124-beds at the Cayman Islands Hospital (the country’s principal health care facility), and the 18-beds at the Faith Hospital on Cayman Brac. Ancillary services are offered at district health centres, and clinics for dental and ophthalmologic care. Residents of Little Cayman can access care through the island’s clinic which is a purpose-built facility.

Job Purpose

To provide psychiatric expertise and leadership to the Cayman Islands Government Health Service.

To provide expert care to minors and adolescents in the neurodevelopmental window experiencing psychological or psychiatric symptoms.

To provide high quality assessments, diagnoses, treatment planning and review in the care of service users.

To work with other health professionals to provide a comprehensive multi-disciplinary team approach to service users care and treatment planning.

Dimensions

The principal specialities are provided by the Health Services Authority to the 74,000 population of the Cayman Islands.

The Cayman Islands Hospital has all modern diagnostic facilities including full laboratory facilities and Radiology facilities. We carry most of the modern medications used in Psychiatry, there is an established process to procure any medication that is not formulary.

The health services authority operates a child and adolescent mental health crisis centre (Alex’s Place). Alex’s place currently provides a walk-in service for clients in the age range 10 -20 having mental health issues. A multidisciplinary team provides expert attention, and these patients are directed along various care pathways including to the emergency room if they are at risk of harming themselves for others.

There is also inpatient admission and management of children and adolescent with acute needs as well as outpatient child and adolescent clinic.

There is also a developing psychiatry forensic service and extensive psychology and counselling services available on island.
